

AVerTV Box Genie I (M075)

Premium Choice for Widescreen Monitor

AVerTV Box Genie I provides a premium choice for widescreen monitor (16:9/16:10) to users. It also presents complete solution of plug and play to directly turn any VGA monitor into TV, and to be a multimedia entertainment center without turning on PC. With built-in speaker, users can directly experience the stereo sound without connecting any audio in/output.

The Channel Preview function allows users to preview 16 channels at the same time and then choose the most enjoyable program. Functions of cutting-edge progressive scan technology and 3D-motion adaptive de-interlace can eliminate jagged edges of TV & DVD movie to improve the clarity and sharpness of the overall image. Moreover, 3:2 Pull-Down technique also makes every TV program perfectly and fully present on different sizes of monitor.
